**What is the Value of Knowing about you? I am here to work with you to gain self-knowledge to have a better outlook and health in Gods Grace.**

I work with and read auras in the process of assisting clients. And with the method of using color for healing you can rejuvenate your health and learn beneficial colors for over 50 elements. Auras are a part of life; the aura is an electromagnetic field emanating from all matter. Auras are 5-6 inches around the body outside of normal vision.
